

April Showers Bring May Flowers

April Bridal Showers

Plan your bridal shower for FUN! The new trend for showers is co-ed. Yes, ladies - don't count out the guys. You can include them and create a fabulous event. Outdoor showers make for enjoying a relaxing time, while socializing with your guests. Every month, our articles encourage you to use your creative juices. The wedding planning should be fun and festive. Be sure to send your invitations and bridal registration details at least three weeks prior to the shower. For out-of-town guests, send them out at least one month in advance. If you're inviting guests from another country, send them out at least four months ahead of the event date. The sooner your guests know about the event, the easier it is to secure travel arrangements.

By the way, wedding registration details should be mailed separately from the invitations. Etiquette states that "you should never expect a gift". And, gifts should be delivered to the home, not taken to the wedding reception.
