August - (Imposing/Noble/Grand/Majestic/Dignified/Eminent)

## Your GRAND Wedding Month

This is the month to shine! August is the wedding month. If you are having your wedding this month, then count yourself blessed. August is one of the hottest months of the year, but also one of the best to have a wedding. August is one of the “off” season months. Usually, vendors take a vacation during August. So, will there be anyone to perform your wedding? Of course! You hold more negotiating power during “off” seasons. You can also get your way for flowers. There are tons of sales! If you are having your wedding next year, you may want to shop during this month for the best bargains. Shop owners and wedding vendors love to make sales during one of the slowest months of the year. It pays to wait for bargains.

### STATIONERY

How do you choose the right invitation for your wedding? Put this down as one of your top priorities, after setting the date. You will probably change your mind a thousand times about the design of your invitation, stationery, or color. Invitations can start as little as \$0.80 and continue to grow, depending on the type of style you want. Personalized (including Thank You cards) stationery always makes the best statement. There are hundreds of thousand of invitations online from which to choose. How do you narrow down the search? It's important to start the search early on in

the planning process. When you think you've decided, you will see another style that you like. The right choice will literally jump out at you. You will know it immediately when you see it for the first time. This may sound corny, but it's true. To add a little spice, there are calligraphers that can create a design especially for your taste. Be willing to spend at least \$6.00/invitation. Be sure to have a professional craftsman frame your invitation alongside your wedding photograph. This makes for an excellent keepsake.
