### Cake Cutting Tip

Photo: Alan Fong (Blue Ocean Weddings, Maui)

The cake is the focal point of conversation at every wedding! A lot of brides today are choosing cakes which reflect their styles of life. As a guest, you may see anything from the traditional white cake to a cake that stands like a skyscraper. Cakes have gotten to be in the top five things on the "To Do" list - after the engagement ring.

Have your baker pre-slice your cake. I have seen some very intricately decorated cakes. The coordinator at the reception site may not be familiar with the intricacies of your design. Some bakers may place a ribbon near the pre-sliced portion to give you an idea of where to begin cutting. It's always a good idea to have every aspect of the wedding day "pre-detailed." This saves you a lot of time and allows each event to flow smoothly.

### The Ring at Valentine's Day!

For the GUYS

Gentlemen, consult with a professional gemologist before purchasing the ring. Having your fiancé aboard for the decision is not such a bad idea. Women like choosing their own rings. Have an idea of the amount of money you wish to spend and stick to that price. Be sure to take out the insurance along with the purchase. You won't regret it. Just like any other insurance document, keep this jewelry purchase set of documents somewhere safe.
